Yes. Un-ironically, yes.

Imagine 1/3 of voters are Dem, another 1/3 are GOP and the remaining 1/3 are in the middle.

Trump's support among GOP is about unanimous; he has record turnout for an incumbent and his polling from these primaries dwarf the DNC turnout. The DNC Primaries are necessary, while the GOP are a formality for incumbents.

Biden, meanwhile, doesn't have anywhere close to the turnout Trump does. Trump outpaced the entire DNC field in primaries, as I've already mentioned. Bernie WON California, which is a very significant block of dem voters and electoral votes. Not to say Trump will win Commiefornia, but it does speak to the Dem voters lack of enthusiasm about Biden.

TL;DR: Trump has his 1/3 locked up, Biden does not have his 1/3 at all. The remaining 1/3 can see how things are, who's responsible, and hopefully use their heads and not elect the demented old fool who will be a front to forcibly shove in a de facto minority woman president that voters already rejected.

Biden was fucked from the start imo. But that's a topic for another day

Prediction: Kamala Harris is the next president. Joe won't make it to the inauguration or will die/quit shortly after. Kamala Harris, who quite literally whored her way up the power ladder, will preside over the nuclear destruction of the United States. The world's businesses will mourn the loss of the place they sell all their cheap garbage to at outrageous prices.

And even if she wasn't, I think the country pretty adequetly said what they felt about Hillary Clinton types and this seems doomed to fail. Even Rice with the Bengazi thing would have been better.

This, the whole thing is going to be a shit show. We have old man Joe who doesn't even know where he is half the time rambling on about beating up Cornpop and Don being the living embodiment of a 12 year old on Xbox Live and thinks remembering 5 things is an accomplishment. Is it a requirement for all American presidential candidates to be 70 year old pedophiles or something, because that is certainly what it seems to be, and no amount of ebonies milfs becoming VP candidates can remedy that.
America deserves whatever it has coming. Just sit back, relax, and wait as humanity erodes itself and comes to its natural end, as it should.

Fix is lads. They're going to hand it to Biden and he'll be relieved shortly after he gets into office. If I were you I'd put some money on this scenario at IEM or something similar. That way you'll have some cash to get the fuck out of this country. Scrimshaw this.

That might be true, but they might not be able to obstruct with all the shit going on. Trump has been specifically aiming his base at local elections just as much as the Presidential. This is possibly a party ending disaster if they lose both chambers and the Presidency. This might be the stuff super majorities are made of. And if it is, holy fuck.

I mean add his support in the Republican Party to the fact that he’s only working with Republicans and needs zero approval from a single Democrat? He can do practically anything he wants. Add that to the fact he can’t be re-elected and thus gives zero fucks and you might see enough fear of him for Democrats to openly start requesting secession from the Union. Open rebellion.

We might have been in the accelerationist timeline all along.

Why did Biden choose Kamala? She doesn't track well with Southern blacks, they have le data, and she's associated with Chicago corruption, the stain of Jussie Smollett is still recalled by normies.

Would she be the shortest president in history, after Biden flails by 2022? She's a midget.

Kamala sold her soul long ago, so this only makes sense for Biden if the Obamas, Clintons and all their goons are on deck for all out war before November. I can't see *any* debates occurring, not even Pence and Kamala? She did terribly in the primaries, she's a backroom dicksucker, her charisma wanes in limelight. Most disconcerting choice

A terrible pick. You can hear the concern and disappointment in MSNBC contributors' voices.

Kamala's biggest problem is her voice. She sounds like a stoner. There's nothing appealing about her voice or her personality. She was a complete dud in the primaries.

Anonymous ID:JiJ8BqGD Tue 11 Aug 2020 13:53:37 No.272136379 Report

I Like Kamala, but will be voting R like last time. Democrats are so hypocritical when it comes to pretty much everything.
Maybe no one cares on here But every since the last election cycle i noticed how they have changed and became about their feelings.

Honestly what we need in this country is healthcare for everyone. Forget calling it medicare for all rebrand it to something like the NHS but don't let the govt control who lives or dies.

This means Trump gets re-elected, quite possibly by wider margin than previously.
Which also means that USA left and s.oygoys will have a fucking MELTDOWN and even more polarization.
UNLESS because of all the rioting, looting and other shit, USA will see a neo-Renaissance of right-wing movement among general populace.

We now say not to use the archaic and sexist term "mistress" for a woman in a long-term sexual relationship with, and financially supported by, a man who is married to someone else.
Instead, use an alternative like companion or lover on first reference. Provide details later.

The only noteworthy quality she has beyond following neolib orthodoxy is "I have an ashy pussy".

Which doesn't even amount to anything this time around because nigs hate her guts and didn't support her at all in the primaries. She's infamous for being a cop in blegpipo and woke circles so she will likely drive down turnout in those groups.

Biden's dumb ass severely limited himself by constraining himself to only have a black woman as VP. He was basically stuck with Cum-Allah and she's fucking terrible.

Great pick for the Democrats. She's a genuine progressive who will push for better healthcare and a stronger safety net (which coronavirus showed is desperately needed). She was also a district attorney, which will play well with independents who don't want a radical BLM supporter. Kamala doesn't rock the boat either, like Warren definitely would.

Doesn't really matter at the end of the day. Biden could pick Ghislaine Maxwell as his running mate and still win. Trump is retarded and is turning america into a disease ridden shit hole

When San Francisco police broke down a door inside a group home for mentally disabled people in 2008 and shot a 56-year-old resident, then-District Attorney Kamala Harris didn’t charge the officers with a crime. Instead she prosecuted the schizophrenic woman who was severely injured in the shooting.

Harris charged Teresa Sheehan with assaulting the officers, alleging she came at them with a kitchen knife after they forced their way into her room. But the jury was not convinced. It deadlocked in favor of acquitting Sheehan on the assault charges, and found her not guilty of threatening to kill a social worker who had called the police for help to get Sheehan into a psychiatric hospital.

To the meme flag anon who was freaking out about Biden winning. The thread was 404'd for the sticky, hope you see this.

I don't think that Trump can lose barring another black swan event. Joe Biden is a genuinely horrible candidate which is why he never got much above 1% when he ran in the democratic primaries before being vp. Kamale is mediocrity personified. The cool wine aunts her and Joe appeal to were always going to vote D. Progressives and super woke black people will actually be annoyed by this because Kamala is a cop, not and american nigger, and firmly in the establishment wing of the party. I expect a lot of them to stay home. Considering all this, it is impossible for Joe Biden to become president. It's more likely that Donald Trump dies from being a fat fuck and a boomer than that Biden wins.

Plus, the Biden ticket is almost insulting. Like the democrats know the real race is in 2024 when the republicans can't possibly follow Trump with a (pseudo) antipolitician that's willing to call out political bullshit from the dems and Republicans. Third party is too disadvantaged financially, and Trump can easily bank on "my hands are untied since I don't need to worry about my next election" shit

Really because that's exactly what's been happening in these cities. In Portland they put a courthouse under siege until the feds showed up and in Seattle they carved out their own lawless "autonomous zone" where they shot 4 people and got away with numerous other crimes. That sounds like anarchy to me moshe

A lot of you are severely underestimating how much niggers hate Kamala.

She was the most prominent black woman candidate in a party whose contemporary view of black women is borderline idolatry, and she ate shit. HARD. She had terrible support even among black people alone.

Biden literally had more pull with black people before he announced his VP simply by virtue of being the Dem nominee and Obama's VP. She's an active detriment to his black outreach.

Blacks don't have to vote for Trump to help him, expecting that is retarded. They just have to be pissed off and demoralized enough to stay home and not vote. Kamala achieves that spectacularly.

OK someone needs to explain this shit to me.

IS THIS THREAD BEING MONITORED BY CIA NIGGERS RIGHT NOW?

I'm not one for conspiracies and shit but a lot of earlier replies are now GONE. DELETED. Check the top of this thread and a lot of post numbers are crossed out.

I suspect CIA (niggers) are archiving these replies around the clock 24/7, and tracing them to our IP. High possibility we are being marked on their "Far-right white supremacy terrorist" list. The ones crossed out are most likely their top priority to be executed.

What really gave it all away to me was the fact that they hacked the reply count ITT (In This Thread). It's been stuck for ages at only 1000 replies. Sloppy fucking job mossad niggers.

It's not just about appeasing blacks. It's about appeasing white liberals who think they'll save the world by voting for a black person.

Exactly. Biden, himself, is a great great grandson of a slave owner, and blacks will show up in droves to vote for his old white male ass. They would vote for a white man promising to bring slavery back if the media told them to. It's as simple as that.

chucking is not enough

I have said this before: Sneed is--literally--the chucking of sneed. It's meme fucking chuck. sneed on this. Its entire purpose is to destroy the very concept of chucking, to undermine sneed culture from sneedin. It sneeds to reduce everything to the same grey goo that gucci loafers did to architecture. sneedchads are your friends. They love you and your entire feed. Stop being their useful city slicker. A few jump on the bandwagon and try to create some sneed but you haven't eeeeeeieee eeeeenoticed that is the purpose, that they're just absorbing and sneeding you. The end goal of sneedposting is the death of comfysimpsons communication. Ask yourself, just who might want this more than anything? Just who might have such a chuck against this sneed

idk I think they've over played their hand here. The rioters and BLM have been simmering for a long time here and anyone on the right was just waiting for it to come out. It's a major liability for the left though. It's hard to market yourself as morally superior to Trump when your side is looting, burning shit down, and attacking cops. Only the most hardcore left is onboard for that.
